Hospital Dental Care

Dr. Myers has recommended hospital dental care for your child at this time. Here are some things that we will need completed in preparation of surgical care:

- Our Hospital coordinator, Lisa, will be contacting you in regards to all necessary information and scheduling.
- We will need a copy of your medical insurance card as soon as possible.
- We recommend that you contact your medical insurance carrier to find out what your copay for hospital care might be. For dental surgery, our office will bill your insurance for dental care only.
- Estimated** dental copays are to be paid in full 1 week prior to your surgical date. The estimated treatment plan may change once a comprehensive exam and x-rays are completed.
- Our Dental surgeries are completed at Sparrow Hospital's main facility in Lansing, MI. We have blocked time on the first and third Wednesdays of each month. It is an outpatient procedure, so plan on a portion of the day at the hospital, and returning home following recovery.
- Surgical times are not established until 1 week prior to surgery. Lisa will contact you with a final time, the Wednesday prior to surgery.
- We require a physical exam to be completed by your child's pediatrician **no sooner than 1 week prior** to their surgical date.
- Nothing to eat or drink after bedtime the night before surgery. We attempt to get our young patients in for surgery as early as possible to assist you in this matter.
- Dr. Myers will consult with you, as well as the anesthesiologist, prior to dental surgery. He will also meet with you following surgery to discuss all findings and post-operative care.
- If you have any questions, please feel free to contact our office at 517-337-0032.

Thank you for your cooperation in helping to make this run as smooth as possible for all parties.

Dr. Myers
